Section 4: First Aid Measures

4.1 Description of First Aid Measures

General: In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.

Inhalation: Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious place in the recovery position and obtain immediate medical attention. Give nothing by mouth.

Eyes: Irrigate copiously with clean fresh water for at least 15 minutes, holding the eyelids apart and seek medical attention.

Skin: Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser

Ingestion: If swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.

4.2 Most Important Symptoms and Effects (Acute and Delayed)

Overview: No specific symptom data available. See section 2 for further details.

Skin: May cause an allergic skin reaction.

Section 5: Fire Fighting Measures

5.1 Extinguishing Media

Dry chemical, foam, carbon dioxide or water spray.

5.2 Special Hazards Arising from the Substance/Mixture

Hazardous decomposition: None under normal use.

Avoid breathing dust / fume / gas / mist / vapors / spray.

5.3 Advice for Fire-Fighters

In the event of fire, wear full protective clothing and NIOSH Approved Self-contained breathing apparatus with full face piece operated in the pressure demand or other positive pressure mode. Move container from fire area if it can be done without risk. Use water to keep fire exposed containers cool and disperse vapors.

Section 6: Accidental Release Measures

6.1 Personal Precautions

Evacuate personnel to safe areas. Use personal protective equipment.

6.2 Environmental Precautions

Do not allow spills to enter drains or watercourses.

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

6.3 Methods and Materials for Cleanup

Use a non-combustible material like vermiculite, sand or earth to soak up product and place in a container for later disposal. Dike for disposal and cover with wet sand or earth.

Section 7: Handling and Storage

8.2 Exposure Controls

Respiratory: If workers are exposed to concentrations above the exposure limit they must use the appropriate, certified respirators.

Eyes: Safety glasses with side shields.

Skin: Overalls which cover the body, arms and legs should be worn. Skin should not be exposed. All parts of the body should be washed after contact.

Engineering Controls: Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.

Other Work Practices: Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.
