

About Us

Simply known as Edmac, we are proud to be a parts specialist because we know that every part matters. The right parts keep clean, vital, energy-efficient air flowing to all of your critical production processes. We understand that you can't afford downtime – not even for a minute.

Edmac is running full speed from our state-of-the-art, 150,000 sq. ft. North American Service Center in Charlotte, NC. We are better equipped, fully staffed and have over \$1 million of inventory in stock – Which we believe is more than anyone else in the U.S.

Mission Statement

*To develop the next generation of industry leading business units, allowing customers to increase their operational efficiency by availability, competence and excellent logistics.
To be an efficient and customer-focused organization, capable of delivering a world-class service experience, across the product portfolio.*

Quality Statement

Edmac commits itself to align its product quality with the highest OEM compressor standards. By doing so, we are able to support our customers in delivering a guaranteed high quality and cost-efficient service. Edmac always strives for a guaranteed quality, within the product as well as in their service

Product range spans over, but is not limited to, lubricants, filters, service kits, consumables, airends and airend exchanges.
